

Release Notes 04.10.05a

This document describes the changes in the new version of the software.

The document describes the changes when updating software version:

04.10.05

To software version:

04.10.05a

It is valid for following terminals:

- BASIC-Terminal
- BASIC-Terminal TOP
- COMFORT-Terminal
- TRACK-Guide II
- ECO-Terminal
- GuideME

and for other ME non-touch terminals, starting with hardware version:

03.00.00

Service application

GPS driver

The GPS driver "A100, A101" has been updated because the EGNOS correction satellites 123 and 136 have been put into operation.

In addition, the factory settings have been adapted to these new EGNOS correction satellites.
