

## Release Notes 01.03.00.12

This document describes the changes in software version **01.03.00.12** compared to the previous version 01.02.00.31.

Valid for:

- HOEING-Controller MIDI 3.0

### New functions

<b>Coulter pressure regulation</b>	The coulter pressure can now be adjusted hydraulically.
<b>Tool settings</b>	Elements can now be reduced on both sides. This function can be used when elements are removed.
<b>Speed</b>	The speed signal is now sent to the proprietary bus.
<b>Compatibility</b>	The compatibility with older terminals has been improved.

### Bug fixes

<b>Hoeing elements</b>	An icon that shows when hoeing elements cannot be lowered is not correctly displayed.
<b>ISOBUS Shortcut Button</b>	An ISB alarm message has been adapted
<b>Working width</b>	The effective working width is now calculated correctly.
